

Publisher

1. Create the layout in the publisher

2. Save your layout and edit playlist

3. Move content into each Zone in the playlist. Specials can also be used and additional functionality for Ad Hoc Users.

4. Next schedule your playlist.

SchedulesAdd ScheduleOverridesAdd Override

Actions	Name
<div><div></div><div></div><div>Edit...</div></div>	hgh
Key: <div></div>	
<div><div></div>Currently Active Schedule</div>	

5. Next you need to create a channel so NTB subscribers can connect to the publisher. Note that channel one is already active as default. Details for your publisher can be found under Channels and manage channels.

PublishingChannelsRole

Add Channel

Actions	State	Number	Name	Channel Id	Transfer Status	Publish to
<div><div></div><div>Activate</div></div>	Active	1	NTB35006	Never Published	<div><div></div>Channel has never been Published</div>	The NTB's /channel/1 folder

6. Now your layout and schedule is ready. Please go to the channels tab and select publish channel and then publish channel now on the page.
